

Kroll Ontrack Launches Ontrack Inview

By Staff

23 March 2011

Compliance Week

Kroll Ontrack, a provider of legal, information management, and data recovery products and services, announced the launch of an all new user experience within the Ontrack Inview review tool. Version 7.0 is now complete with a modern, fresh design and offers clients a brand new user experience.

Developed by users for users, insight for the new user interface was obtained from a global team of experienced reviewers located in Kroll Ontrack document review facilities around the world. This interface, together with the unique Intelligent Review Technology, maximize the speed of document review, saving costs by:

- Increasing efficiency. With logical task groupings, a new intuitive ribbon bar and more right-click options, clients can gain faster access to commonly used review features.
- Improving ease of use. Dual monitor support allows for additional screen real estate for easier viewing of potentially relevant documents.
- Customizing your experience. With drag and drop, dockable viewing panes, the screen layout is now customizable for all review needs.

For more information about the Ontrack Inview 7.0 review tool and Ontrack Advanceview 7.0, visit www.krollontrack.com/ontrack-inview or www.krollontrack.com/ontrack-advanceview/.
